HDR Remodeling Wins Chrysalis Award for Remodeling

HDR Remodeling is Awarded 2019 Chrysalis Award for Berkeley Accessory Dwelling Unit Build

Berkeley, CA (June 26, 2019) - HDR Remodeling, a residential home remodeling firm, continues to set new standards of distinction with winning the 2019 Chrysalis Awards for Remodeling Excellence for an Accessory Dwelling Unit (ADU) built in Berkeley. The ADU was judged on overall design, the creative use of space and materials, and the degree to which the project enhanced the original structure.

The Berkeley ADU was designed with a priority towards minimizing environmental impact and aging-in-place, allowing elderly family who need additional support to live with dignity. The design included zero threshold transitions, contrasting floors and counters, a roll-in shower, and other features to accommodate aging-in-place. The roof of the ADU was engineered to support a container garden to allow the family to sustainably farm fresh produce.

“This team has insight and they are incredibly responsive to my requests,” Jane Baldwin, HDR Remodeling’s client for the ADU said. She continued, “Their design guru, Kevin Mond, does everything. Their project manager, Chris Fellows, is a magician in carrying out the steps necessary to move the project forward. What more can one want?”

The 2019 Chrysalis Award is the third award won by HDR Remodeling for this innovative project, following a 2018 Bay Area Remodeling Award and 2019 Contractor of the Year Award from NARI, the National Association of the Remodeling Industry, which is a testament to HDR Remodeling’s commitment to remodeling excellence.
